

MIS TLIF & LLIF Techniques Cadaveric Training Program Saturday 21 October 2017

MS Ramaiah Advanced Learning Centre, Bangalore

PROGRAM OVERVIEW:

The MIS TLIF Techniques course is intended for surgeons who want to develop their knowledge and expertise on the most innovative minimally invasive surgical (MIS) techniques utilizing Globus Medical implants and instruments. Led by experienced faculty, the course provides a forum for exposure to the latest cutting edge techniques used for spine surgery.

Presentations and discussions are followed by an intensive cadaveric hands-on session, where attendees have the opportunity to reinforce concepts learned in the didactic portion.

Hands-on Session to include:

- MIS Transforaminal Lumbar Interbody Fusion (MIS TLIF)
- Lateral Lumbar Interbody Fusion (LLIF)
- Percutaneous Screw Fixation

TARGET AUDIENCE:

Enrollment in this program is open to orthopaedic and neurological surgeons practicing in India only.

This course will be taught in English.
