Bangalore

Latest Surgical Technologies
& Best Clinical Practices

Venues:
Cadaver Workshops
MS Ramaiah Advanced
Learning Center

Live Relay From
Fortis Hospitals to
Hotel JW Marriott

Message From Organising Committee

Dear Colleagues,
Welcome to

1st MISSI Annual Live Surgery and Cadaver Course

The course presents unique opportunities to learn minimally invasive spine (MIS) surgeries for young surgeons in training as well as those who want to extend into advanced techniques. The course is designed to present both basic and advanced technologies during live surgery and practice on the cadaver under the expert guidance of renowned International and National faculty. It is hoped that the interactive sessions will generate sufficient discussion to promote safe MIS. At the end of the course, the participant is expected to understand the principles of MIS surgery and will be able to use these principles in their practice.

Thank You

Dr. Rajakumar Deshpande, M.Ch.
Organizing Chairman
MISLIVECAD 2017

Dr. Umesh Srikantha
Organising Secretary
MISLIVECAD2017
