LEARNING CENTER**

BASIC PELVI - ACETABULAR COURSE

July 7, 8 & 9th - 2023

**KMC
Accredited**

Venue :
Ramaiah Advanced Learning Center

Surgical treatment of acetabular fractures requires a prolonged and very steep learning curve. Both the experience of the surgeon and the approach to the treatment of the fracture have significant effect on the clinical outcome. Patient may get the best of his ability or may suffer complications.

There have been several national and international theoretical and practical training courses that have been organized to increase the success rate of surgical treatment of acetabular fractures. But as these are restricted mostly to one day or maximum two days courses, many basic learning points are too compressed to be understood well.

As pelvi-acetabulum fractures need a level of confidence in management, the course must teach in a way to generate confidence in the mind of surgeon, so that he feels enabled to go on the path of learning management of these injuries. This has been the aim of this pelvic course in Ramaiah Learning centre, where we spend enough time on each aspect of learning.

As this is a Basic course, our emphasis is on understanding these fractures from the radiography, drawing lines on pelvic models and defining strategies of fracture management. There will be bone model exercises for simulating the principles of pelvi-acetabular fracture fixations. Surgical video will be shown for all types of basic surgeries to simulate real OT situation.

There will be adequate number of cadavers for surgical dissection (not more than 4 participant per table, two on either side). This level of experience will enable each participant to understand the "Depth" of surgical approach fully.

We are getting some of the top faculty from different part of the world who are very regular in teaching AO courses in Davos. They will be supported by the best faculty from all over the country who have been contributing for many years with the passion of teaching and training.

This will be a Basic course and is planned for surgeons who are interested in pelvic acetabular surgery and want to upgrade their skills from routine trauma care.

Dr Ramesh Sen
Course Director

Day 1 - July 7, 2023

8.15-8.30 Introduction to the Course

Module 1

08:30–08:40 Radiographic assessment and classification of pelvic ring injuries
08:40–08:50 Clinical assessment of the patient with unstable pelvic injury
08:50–09:00 Haemorrhage control: packing, angio-embolization
09:00–09:10 Anterior ring lesions
09:10–09:20 Sacro-iliac joint
09:20–09:30 Sacrum fractures
09.30-09.40 Crescent Fractures
Question & Answers

09.50-10.10 Coffee break

Module 2

10.10-11.30 Practical exercise 1 Stabilization of the pelvic ring with ex. Fix.
Batches alternate on case discussion on emergency treatment

Module 3

11.30-11.40 APC lesions management
11.40-11.50 LC lesion management
11.50-12:00 VS lesion treatment

13:00–14:00 Lunch break

Module 4

14:00–15.30 Practical exercise 2 SI dislocation anterior plating and symphysis plating
Batches alternate on case discussion on emergency treatment

15.30–15:50 Coffee break

Module 5

15:50–16:00 Special considerations—elderly patients
16:00–16.10 Open pelvic fractures
16.10–16.20 Complications and clinical outcomes
16:20–16.30 Late reconstructions
16.30-17.00 Burning questions on pelvic trauma

Day 2 - July 8, 2023

Module 6

08:30–08:50	Radiographic assessment and classification of acetabular fractures
08:50–09:10	Decision making in acetabulum fractures
09:10–09:30	Kocher-Langenbeck approach
09:30–09:50	Posterior wall fractures
09:50–10:10	Posterior column, and associated PW fractures
10:10–10:40	Question & answers

10:40–11:00 Coffee break

Module 7

11:00–11:10	AIP approach
11:10–11:20	Modified Ileo-femoral approach
11:20–11:30	Ilioinguinal approach
11:30–11:40	Transverse fractures
11:40–11:50	T type fractures
11:50–12:00	ACPTH fractures
12:00–12:10	ABC fractures

Module 8

12:10–13:40	Practical exercise internal fixation of transverse plus post wall (Two batches with alternate batch on case discussion)
-------------	--

13:40–14:30 Lunch break

Module 9

14:30–14:40	Combination pelvis and acetabular fracture
14:40–14:50	Floating hip injury
14:50–15:00	Femur head Fractures
15:00–15:10	Management of Complications

15:10–15:30 Coffee break

Module 10

15:30–17:00	Practical exercise on bone model (Two batches with alternate batch on case discussion)
-------------	---

Day 3 - July 9, 2023

Cadaveric Session 1: 8 am to 1 pm

8 - 9.30 am Video demonstrations of anterior surgical approaches:
Cadaver position supine
Two participants per station

9.30 - 10 am Tea break and change to cadaveric lab.

Cadaveric dissection: 10 am to 1 pm one hour each on respective exposure

1. Pfannensteil exposure & AIP approach
2. Iliofemoral approach & sacroiliac joint exposure
3. Ilioinguinal approach

1pm - 2 pm LUNCH

Cadaveric Session 2: 2 - 6 pm

2 - 2.40 pm Video demonstrations of posterior surgical approaches
2.40 - 3 pm Tea break and change to lab

Cadaver position lateral, four participants per station

Cadaveric Dissection: 3 pm to 6 pm, 1 hour each on respective exposure

1. K L approach with flip osteotomy
2. Modified Gibson with safe surgical dislocation hip
3. K L approach in prone position

Discussion with Questions answers if any.
