

Day-2, 9TH July (Saturday)	
Time	Topic
9.00 AM to 10.00 AM	Upper Limb
	When to replace radial head
	Bone grafting in Olecranon fractures - Indications
	Implant selection in radius
	When to fix the Ulnar styloid
	Discussion
10.00 to 11.30 AM	Case Discussions
	Clavicle Non-union
	Failed plates used for humeral shaft
	Failed humeral nailing
	Distal humeral non unions – Radial Nerve Palsy
	Non-union forearm bones- Segmental defects
11.30 to 11.45	Tea Break
11.45 to 1.30 PM	Case Discussion
	Neglected Monteggia
	Distal radius malunion – Intra articular osteotomies
	Composite tissue loss
	3 D printing
	DRUJ Instability
1.30 PM	Closing remarks and Lunch

RAMAIAH

ADVANCED
LEARNING CENTER

Presents,
Cadaver Workshop
The Complex Trauma

July 8, 9, 10th 2022

Supported through Unrestricted Educational Grant by

Day-1, 8TH July (Friday)	
Time	Topic
12.30 PM to 1.30 PM	Registration and Lunch
1.30 PM to 1.45 PM	Course objectives and expectations
1.45 PM to 2.45 PM	General Topics: (One hour session)
	When I call it a non-union?
	Why this fracture did not unite?
	Infected Non-Unions: How to manage?
	Discussion
2.45 PM to 4.45 PM	Femoral Fractures (Case Discussions)
	Bisphosphonates gift: An atypical femoral fracture
	Sub trochanteric fracture: A difficult nut to crack
	Interlocking Nail Failures in Diaphyseal fractures: What should I do?
	Supra-condylar nail failures: Prevention and treatment?
	Distal femoral locking plate failures: Prevention and treatment
	Peri-prosthetic fracture THR: How I tackled?
	Peri-prosthetic fracture TKR: How I tackled?
	My femoral fixation got infected. What to do?
	4.45 PM to 5.00 PM
5.00 PM to 6.30 PM	Tibial Fractures: Case discussions
	Reduction strategies for intra-articular fractures of proximal tibia
	Proximal tibial fractures: Nail or plate?
	Distal tibial extra-articular fractures: Nail or plate?

Day-2, 9TH July (Saturday)	
Time	Topic
9.00 AM to 12.30 PM	Lower Extremity Demo with hands
	PFN without a fracture table – lateral position tips and tricks
	Medial approach to distal femur
	Single Posterior approach to proximal tibia
	Posterolateral approach to ankle
	Posteromedial approach to ankle
	Lateral extensile approach to calcaneus
	Sinus tarsi approach to calcaneus
	Dual approach to talus
	Dorsomedial approach for Lisfranc injuries.
12.30 PM to 1.15 PM	Lunch
1.15 PM to 4.45 PM	Upper Extremity: Demo with hands
	Deltpectoral approach to shoulder
	Antero-lateral approach to humeral shaft
	Triceps splitting approach to extra-articular distal humerus fractures
	Trans-Olecranon approach to intra-articular fractures of humerus
	Tackling soft tissue injuries around elbow- approaches
	Thompson approach to proximal to mid radius
	Volar approach to distal radius - modifications
	Carpal tunnel release
	MIS in upper limb surgery
