Dear friends,

If you ever felt that Covid has put you back on improving your surgical skills in trauma, this is a perfect chance to hone your surgical skills. Welcome to our two-day cadaveric course on orthopedic exposures. This course is aimed at providing the best experience in surgical exposures for trauma. "All the lectures focus on each step (either pictures/videos) of each approach". You can get hands-on experience of the surgical exposures under the guidance of the experts. One of the most useful courses at all stages of surgeon's life.
